Smart GPS® (Guidance Performance System)
An exclusive technology registered by
INNOAESTHETICS

Smart GPS®: A state-of-the-art technology

INNOAESTHETICS is constantly working to design “smart” and more effective treatments to solve specific aesthetic alterations and pathologies.

Besides developing new formulas using the latest active ingredients, the laboratory also designs innovative techniques to maximize their effectiveness.

Because the proper penetration of a topical product through the skin tissues is one of the biggest challenges for all galenic experts, the laboratory has created Smart GPS® (Guidance Performance System). A state-of-the-art-technology that achieves better penetration of the actives through the stratum corneum.

Smart GPS® imitates the physical-chemical characteristics of the epidermis surface to overcome the skin resistance without damaging it, and safely conveys and delivers the ingredients into specific groups of cells where their therapeutic effects will be optimal. This technology also ensures the stability of the actives and protects them from degradation.

All INNO-DERMA® products incorporate Smart GPS®.

NMF TONIC

Highly moisturizing and invigorating toner that regulates skin homeostasis.

INDICATIONS

Active Ingredients

PCA Salts, Lactic Acid, Enteromorpha Compressa Extract, Smart GPS®.

Mechanism of Action

Perfect combination of osmoregulatory agents to maintain skin homeostasis, and NMF (Natural Moisturising Factor) components that “awaken” and moisturize the skin.

Indications

- All skin types.
- Daily skincare.

Benefits

- Regulates skin homeostasis.
- Moisturizes and refreshes.
- Revitalizes the skin.

Application Technique

Spray the toner on clean and dry skin. Apply in the mornings and re-apply throughout the day as needed.

SOFT CLEANSER

Gentle but effective cleanser that delicately removes all impurities and protects the hydrolipidic film, leaving the skin clean, fresh and soft.

INDICATIONS

PROFESSIONAL USE

HOME USE

Active Ingredients

Cocamide MEA, Cocamidopropyl Betaine, Smart GPS®.

Mechanism of Action

Amphoteric and anionic active ingredients that cleanse the skin while preserving its pH and the integrity and optimal function of the hydrolipidic layer.

Indications

- All skin types.
- Sensitive and reactive skin.
- Daily skincare.
- Cleansing prior aesthetic procedure.

Benefits

- Cleanses the skin.
- Maintains the pH of the skin.

Application Technique

Wet your face with lukewarm water and apply the cleanser by gently massaging on face and neck until foam appears. Rinse off with plenty of water. Morning and night facial cleanser.

DEEP CLEANSER

Oil-free and noncomedogenic solution that deeply cleanses the skin, unclogs and purifies pores. Leaves the skin refreshed and healthier.

INDICATIONS

Active Ingredients

Glycolic Acid, Cocamide MEA, Smart GPS®.

Mechanism of Action

Surfactant effect that allows deep cleansing of the skin with sebum-regulating active ingredients that regulate the hydrolipidic layer.

Indications

- Oily skin.
- Acne-prone skin.
- Cleansing prior aesthetic procedure.

Benefits

- Skin detoxification.
- Sebum-regulation.

Application Technique

Apply with your hands and warm water by gently massaging on face and neck until foam appears. Rinse with plenty of water and dry the skin.

SENSITIVE

Lightweight facial moisturizer
especially indicated for sensitive
and hyper-reactive skin.

INDICATIONS

Active Ingredients

Panthenol, Hyaluronic Acid, Smart GPS®.

Mechanism of Action

Lightweight moisturizing formula that soothes your skin and protects it from external aggressions, thus preventing tightness and irritation. It boosts the skin natural defenses and improves its resistance. For a softer, smoother and calmer skin.

Indications

- Sensitive skin.
- Hyper-reactive skin.

Benefits

- Improves skin moisture and elasticity.
- Helps to protect the skin from external aggressions.
- Improves the skin protective barrier.

Application Technique

Apply morning and night on clean and dry skin.

EXTREME SKIN BARRIER

Nourishing facial cream especially designed for dry, sensitive skin or for skin exposed to extreme weather conditions.

INDICATIONS

Active Ingredients

Moisturising Complex, Panthenol, Hyaluronic Acid, Biosaccharide Gum-4, Smart GPS®.

Mechanism of Action

Nourishing formula that restores the hydrolipid mantle and forms a protective film on the skin's surface that acts as a protective barrier from external stressors. High concentration of hydrating, protective, and restorative active ingredients that repair skin exposed to extreme weather conditions.

Indications

- Extreme weather conditions.
- Warm or cold temperatures.
- Dry skin and very dry skin.

Benefits

- Deeply hydrates the skin.
- Protects the skin from external stressors.
- Thoroughly nourishes the skin.

Application technique

Apply morning and night on clean and dry skin.

REDNESS CREAM

Facial moisturizer for your daily routine. Especially designed for sensitive skin prone to redness.

INDICATIONS

Active Ingredients

Flavonoids, Saponosides, Procyanidins, Shea Butter, Dextran Sulfate, Lactobionic Acid, Smart GPS®.

Mechanism of Action

Excellent formula that combines actives with calming properties to shrink inflamed blood capillaries, prevent and reduce redness, and boost natural skin defenses against external aggressions. Effectively prevents flushing and inflammation while keeping the skin smooth and hydrated.

Indications

- Redness-prone skin.
- Vascular spiders on face.

Benefits

- Prevents redness and inflammation.
- Smooths the skin.
- Helps to even the skin complexion.

Application Technique

Apply morning and night on clean and dry skin.

EYE REVITALIZER

Eye contour treatment that revitalizes and rejuvenates the skin in the periorbital area.

INDICATIONS

Active Ingredients

Peptides, Flavonoids, Smart GPS®.

Mechanism of Action

Advanced cosmeceutical action that repairs the skin in the periorbital area and reduces eye puffiness thanks to promoting venous return and improving elasticity. It also relaxes the facial muscles, thus helping to attenuate crow's feet and lines around the eyes.

Indications

- Eye puffiness.
- Dark circles.
- Crow's feet.

Benefits

- Attenuates wrinkles in the periorbital region.
- Improves skin elasticity.
- Eye contour rejuvenation.

Application technique

Apply on the periorbital area with the tips of the fingers through gentle circular motions from the nose to the temples.

AGE RESCUE 24H CREAM

Intensive cream for
skin rejuvenation.

INDICATIONS

Active Ingredients

Hyaluronic Acid, Vitamin C, Retinol, Biomimetic Peptides, Lactobionic Acid, Smart GPS®.

Mechanism of Action

Controls the thickness and uniformity of the stratum corneum, allowing epidermal restructuring. It also promotes the synthesis of skin proteins.

Indications

- Skin aging.
- Dehydrated and flaky skin.

Benefits

- Attenuates fine lines and wrinkles.
- Improves skin hydration and firmness.

Application Technique

Apply at night, following the professional advice. Use after cleansing the skin with INNO-DERMA® Soft or Deep Cleanser.

SKIN REPAIR

Combination of select active ingredients for cutaneous repair and restructuring after aesthetic procedures.

PROFESSIONAL USE

HOME USE

INDICATIONS

Active Ingredients

Artemia Extract, Arnica Montana Extract, Ruscus Aculeatus Extract, Glycyrrhethinic Acid, Smart GPS®.

Mechanism of Action

A mixture of active ingredients with powerful anti-inflammatory properties which help to avoid adverse effects after an aesthetic procedure. It accelerates the reepithelization process and promotes skin recovery.

Indications

- After irritative aesthetic treatments.
- Damaged skin.
- After sunburn.

Benefits

- Skin regeneration.
- Intense skin moisturizing effect.

Application Technique

Apply the product two or more times a day on the affected areas with a gentle massage until it is completely absorbed.

REVITALIZE MASK

Revitalizing bio-cellulose second skin face mask with decongesting, moisturizing and reparative properties.

INDICATIONS

Active Ingredients

Hyaluronic acid, Collagen, Aloe vera, Smart GPS®.

Mechanism of Action

3D biotechnology face mask that perfectly fits the skin. It creates a protector membrane that uniformly and effectively transports all the moisturizing, calming and regenerating active ingredients. Repairs the skin barrier, stimulates cell renewal and enhances skin hydration and elasticity.

Indications

- All skin types.
- Skin regeneration.
- Recovery after aesthetic treatments.

Benefits

- Rejuvenating effects.
- Enhances firmness and elasticity.
- Calming and refreshing effect.
- Restores the tissues.

Application Technique

Apply the mask on your skin and let it act for 20 minutes. Remove the mask and massage the serum that remains on the skin until completely absorbed. Apply 1 or 2 times a week and/or after an aesthetic procedure.

REFRESH MASK

Refreshing and calming
facial mask.

INDICATIONS

Active Ingredients

Urea, Alanine, Glutamic Acid, Hexyl Nicotinate, Sodium Hyaluronate, Panthenol, Menthyl Lactate, Cooper Tripeptide-1, Smart GPS®.

Mechanism of Action

Its components contribute to epidermal restructuring, reduce erythema, burning sensation and inflammation.

Indications

- Irritated skin.
- After facial aesthetic treatments.

Benefits

- Refreshes and regenerates damaged skin.
- Epidermal restructuring.

Application Technique

Use after professional procedure. Apply generously on clean and dry skin by gently massaging in circular movements. Apply 1 or 2 times a week and/or after an aesthetic procedure.

β PURIFIER 24H CREAM

Effective treatment to regulate the production of sebum and restore the balance of oily skin.

INDICATIONS

Active Ingredients

Mandelic Acid, Niacinamide, Azelogyline, Salicylic Acid, Mimosa Ternuiflora Extract and Smart GPS®.

Mechanism of Action

The synergistic action of its ingredients achieves comedolytic and sebum-regulating effects plus the control of bacterial overgrowth, thus reducing the inflammatory processes.

Indications

- Open pores.
- Seborrheic/oily skin.
- Acne scars.
- Stretch marks.

Benefits

- Regulates the excess of sebum.
- Skin detoxification.
- Reduces open pores.
- Promotes skin healing.

Application Technique

Apply at night, following the professional advice. Use after cleansing the skin with INNO-DERMA® Deep cleanser.

DARK SPOT ERASER

[DSE PLUS+]

24H CREAM

At-home treatment for skin pigmentation and rejuvenation.

INDICATIONS

Active Ingredients

Glycolic Acid, Salicylic Acid, Niacinamide, Glucosamine Sulfate, Undecylenoyl Phenylalanine, Retinol, Licorice Extract, Phytic Acid and Smart GPS®.

Mechanism of Action

Combination of plant-based active ingredients that control the production of melanin and enhance the dispersion of pigment and pigmented granules.

Indications

- Abnormal skin pigmentation.
- UV-induced skin damage.
- Prevention of dyschromia.
- Fine lines.

Benefits

- Evens the skin tone.
- Rejuvenates the skin.

Application Technique

Apply at night, following the professional advice. Use after cleansing the skin with INNO-DERMA® Soft or Deep Cleanser.

SUNBLOCK UVP 50+

Broad-spectrum sunblock
with moisturizing and
antioxidant properties.

INDICATIONS

Active Ingredients

Chemical Filters, Physical Filters, Free Radical Scavengers and Smart GPS®.

Mechanism of Action

It combines mineral and chemical filters to effectively protect from UVB and UVA rays. Moreover, it contains antioxidant and moisturizing active ingredients that prevent cell oxidation and enhance skin moisture.

Indications

- All skin types.

Benefits

- Broad spectrum UVB/UVA protection.
- Free radical prevention.
- Antioxidant and moisturizing.

Application technique

Apply on clean and dry skin 30 minutes before sun exposure.
Re-apply regularly to ensure maximum protection.

SUNBLOCK UVP 50+ OILY SKIN

Broad-spectrum sunblock with sebum-regulating properties. Especially designed for oily skin types.

INDICATIONS

Active Ingredients

Chemical Filters, Physical Filters, Free Radical Scavengers and Smart GPS®.

Mechanism of Action

They combine mineral and chemical filters to effectively protect from UVB and UVA rays. Moreover, it includes sebum-regulating agents that help to control oily-prone skins.

Indications

- Oily skin.

Benefits

- Broad spectrum UVB/UVA protection.
- Free radical prevention.
- Helps to balance sebum production.

Application technique

Apply on clean and dry skin 30 minutes before sun exposure. Re-apply regularly to ensure maximum protection.

KERATODERM

Powerful body moisturizer
for keratosis and dry skin.

INDICATIONS

Active Ingredients

Urea, Panthenol, Salicylic Acid, Maslinic Acid, Smart GPS®.

Mechanism of Action

Powerful moisturizing formula that promotes skin peeling and subsequent epithelialization, maintains the hydrolipidic film and restores the epidermal pH. The skin becomes smoother and the stratum corneum thins out, favoring the absorption of the ingredients. The epigenetic properties of Maslinic acid redensify, firm, repair and improve skin structure. Light formula of easy absorption.

Indications

- Dry skin.
- Xerosis.
- Keratosis.

Benefits

- Significantly improves skin hydration.
- Repairs the skin.
- Enhances firmness and elasticity.

Application Technique

Apply every day on clean and dry skin and gently massage it until the product is fully absorbed.

HAIR LOTION

Hair lotion with Minoxidil-like effect that rebalances the activity of the hair bulb and promotes the regeneration of the hair follicle.

INDICATIONS

Active Ingredients

Aminexil, Saw Palmetto, Nicotinamide, Biotin, Zea Mays and (PPF) Phyto-Peptide Fractions obtained from Curcuma Longa and Smart GPS®.

Mechanism of Action

Regenerates the hair bulb and rebalances the hair cycle, prolonging the Anagen phase of growth and postponing the inactive phases (Cathagen and Telogen). The result is a revolutionary hair lotion formulated with an exclusive Minoxidil-like complex, which also achieves an epigenetic reprogramming of the hair follicle.

Indications

- All types of male and female androgenic alopecia.

Benefits

- Slows down hair loss.
- Boosts hair growth.
- Strengthens the hair.
- Enhances hair density and quality

Application Technique

Apply every night on the affected area of the scalp and massage gently until completely absorbed. Do not rinse off.

AGE CONTROL

Advanced nutricosmetics to slow down the signs of aging and improve skin texture.

INDICATIONS

Active Ingredients

Resveratrol, Vitis Vinifera, lycopene, Vitamin C, CoQ10, Vitamin Complex and Hyaluronic Acid.

Mechanism of Action

Anti-aging supplement that promotes the formation of collagen and elastin. It visibly improves skin texture and appearance and slows down the skin aging process. Effectively protects your skin from external stressors, thus preventing oxidative stress.

Indications

- Anti-aging supplement.

Benefits

- Prevents premature aging.
- Improves skin texture.
- Enhances radiance.

Dosage

Take 1 tablet per day, preferably with breakfast.

REDUCER PLUS

Excellent supplement to complement your weight loss plan.

INDICATIONS

Active Ingredients

L-Carnitine, Choline, Garcinia Cambogia, Green Coffee, L-theanine.

Mechanism of Action

Smart capsule that releases its active ingredients in two phases. First, between meals, when ingested, some of its actives are released to help suppress appetite. Then, during meals, the other actives in the formula are released to promote and accelerate fat metabolism.

Indications

- Weight loss supplements.

Benefits

- Helps to reduce appetite.
- Stimulates lipids metabolism.
- Promotes fat-burning.

Dosage

Take 2 tablets per day, between meals. One tablet at mid-morning and the second one in the late afternoon.

HAIR

Oral treatment to prevent hair loss and promote the growth of new hair.

INDICATIONS

Active Ingredients

Saw Palmetto, Vitis Vinifera, Bambusa Vulgaris, Fenugreek Extract, Phytosterols, Taurine, L-Arginine, Vitamin B5, Biotin, Zinc.

Mechanism of Action

Oral supplement that stimulates microcirculation in the scalp and promotes the arrival of nutrients to the hair follicle, favouring the proper function of the follicle which is essential for the growth of strong and healthy hair. Furthermore, it balances sebum production and protects the hair follicle from oxidative damage.

Indications

- Complements hair loss treatments.

Benefits

- Slows and reduces hair loss.
- Promotes hair growth.
- Strengthens the hair.

Dosage

Take 2 tablets per day. Preferably with meals.
